

SSC Anomaly Response

- Spacecraft autonomy rules handle initial response to anomalies
- MOC will have automated system to send email and pages to SSC and instrument teams
 - SSC will coordinate with instrument teams under what circumstances they will be paged
- SSC will coordinate with instrument teams (and MOC) any necessary science replanning
 - DFD table changes
 - Large command loads
 - Heavy use of spacecraft time-tagged commands
- Modified science plans will be distributed on SSC website
- In addition to the regular weekly telecons, the SSC will schedule any additional telecons needed for science replanning associated with anomaly response.
